

Download of scientific use files via secure S-CIRCABC platform

How to have your ECAS (EU-login) account ready (step 1-6)

How to download the data (step 7)

ECAS (new name: EU-login) is the Commission's Authentication Service, a system for logging on to a range of websites and online services run by the European Commission including CIRCABC and Secure CIRCABC.

In order to get access to Secure-CIRCABC (S-CIRCABC) platform where scientific use files are stored:

1. You need to be a Data Manager or Principal Researcher of the research project accepted by Eurostat
2. You need to have an ECAS account (EU-login) – step 1
3. Your ECAS account (EU-login) must be linked with your professional e-mail address
(NOT ACCEPTED: gmail, yahoo, hotmail or similar private addresses)
4. You will need to update your ECAS account by adding your mobile phone number (step 4).
5. If you have an ECAS (EU-login account) with your mobile phone registered – go directly to step 7 for data download instructions

Table of Contents

Step 1 Create you ECAS (EU login) account	2
Step 2: Go to your ECAS (EU-login) account	2
Step 3: View and modify your account details	3
Step 4: Add mobile phone number	5
Step 5: Mobile number verification	6
Step 6: Success confirmation	6
Step 7 Access to S-CIRCABC and data download	7

Step 1 Create you ECAS (EU login) account

Please [click here](https://webgate.ec.europa.eu/cas/login) (<https://webgate.ec.europa.eu/cas/login>) to create an EU-login if:

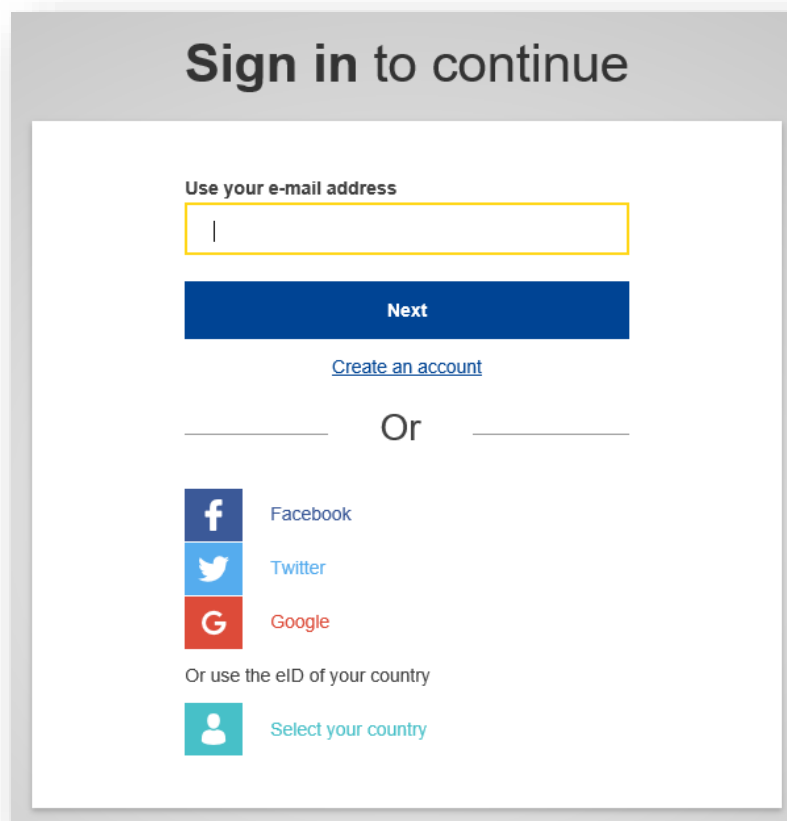

- you don't have it yet.
- your current account is linked to gmail, yahoo, hotmail or similar private address

Step 2: Go to your ECAS (EU-login) account

Go to <https://webgate.ec.europa.eu/cas> .

If you are not already logged-in to your ECAS account, the log-in screen below will be displayed.

Alternatively, if you are already logged-in you can proceed with Step 3.

The image shows a login interface titled "Sign in to continue". It features a text input field labeled "Use your e-mail address" with a yellow border. Below the field is a blue button labeled "Next". Underneath the button is a link that says "Create an account". A horizontal line with the word "Or" in the center separates this from the social login options. These options include three icons: Facebook (blue square with white 'f'), Twitter (light blue square with white bird), and Google (red square with white 'G'), each followed by its respective name. Below these is the text "Or use the eID of your country" and a teal icon of a person, followed by the link "Select your country".

Sign in

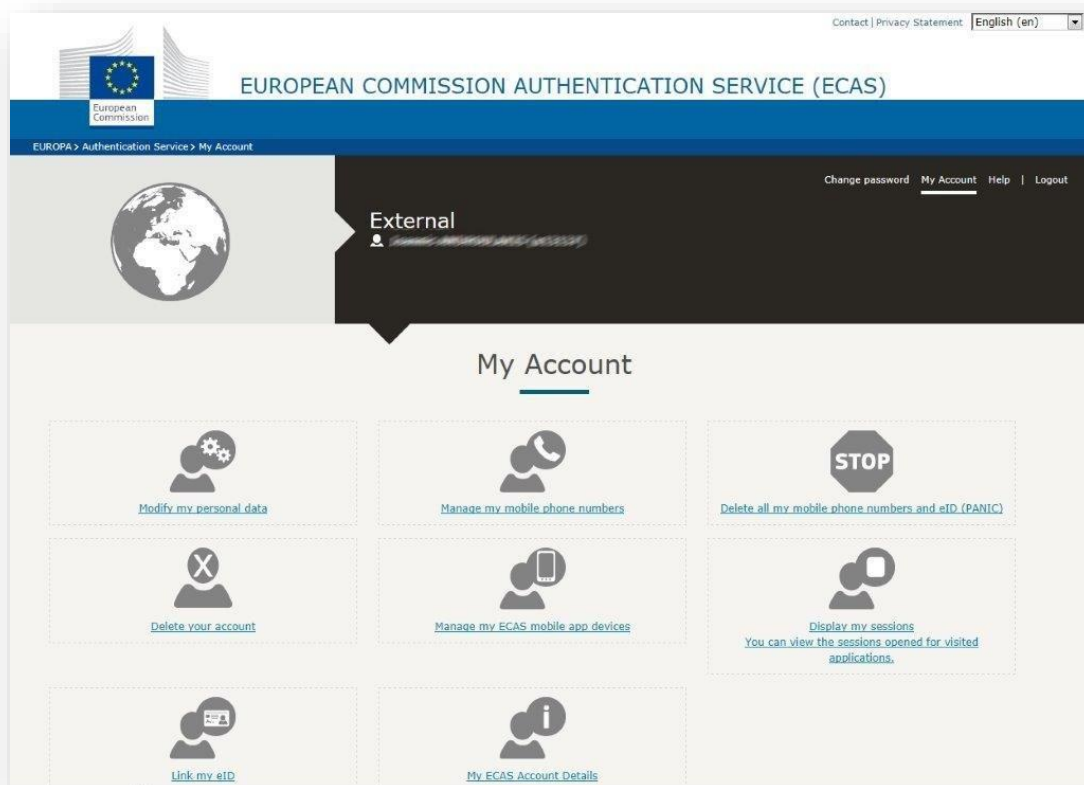

Enter the password of your account and click on “**Sign in**”.

Step 3: View and modify your account details

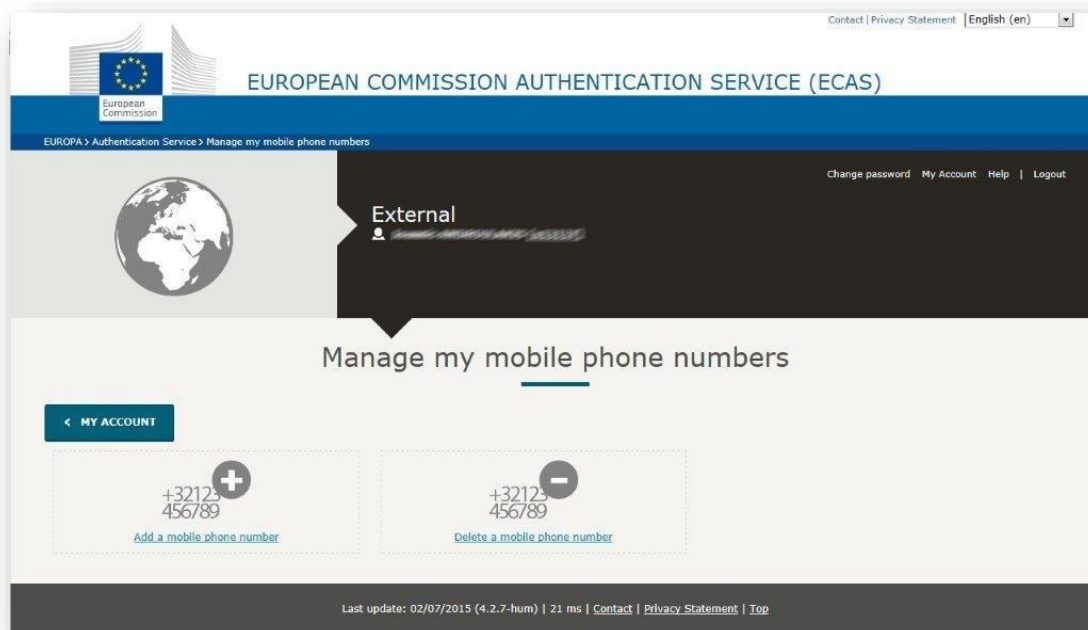

On the screen below, click on the icon to the right of your name and select “**My Account**”.

The following screen is shown and you need to click on '**Manage my mobile phone numbers**'.

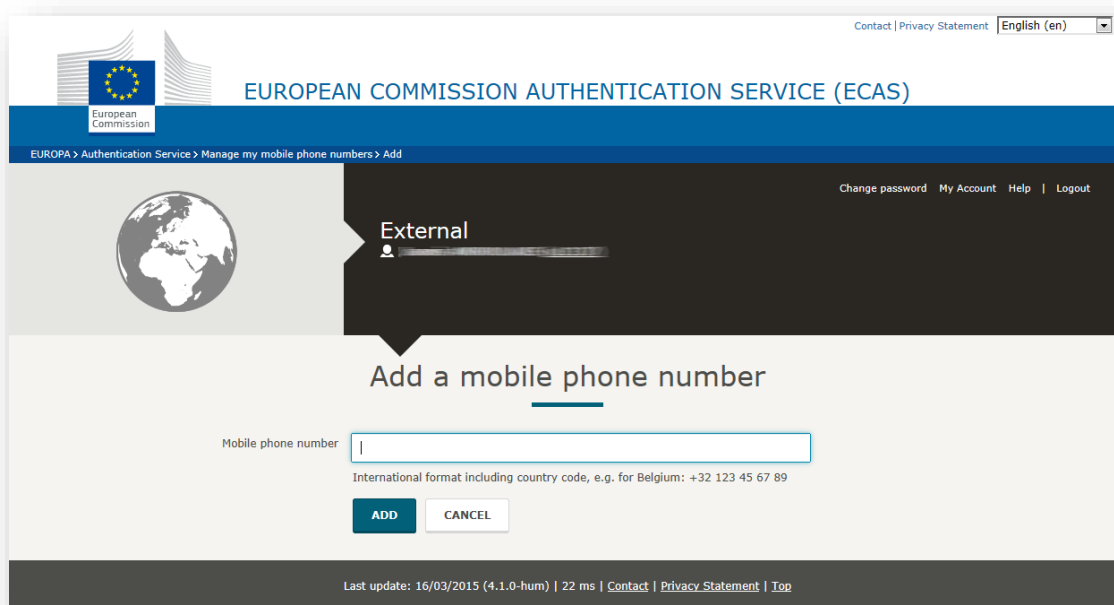

The following screen is displayed, allowing you to add a new phone number or delete an existing one.

Step 4: Add mobile phone number

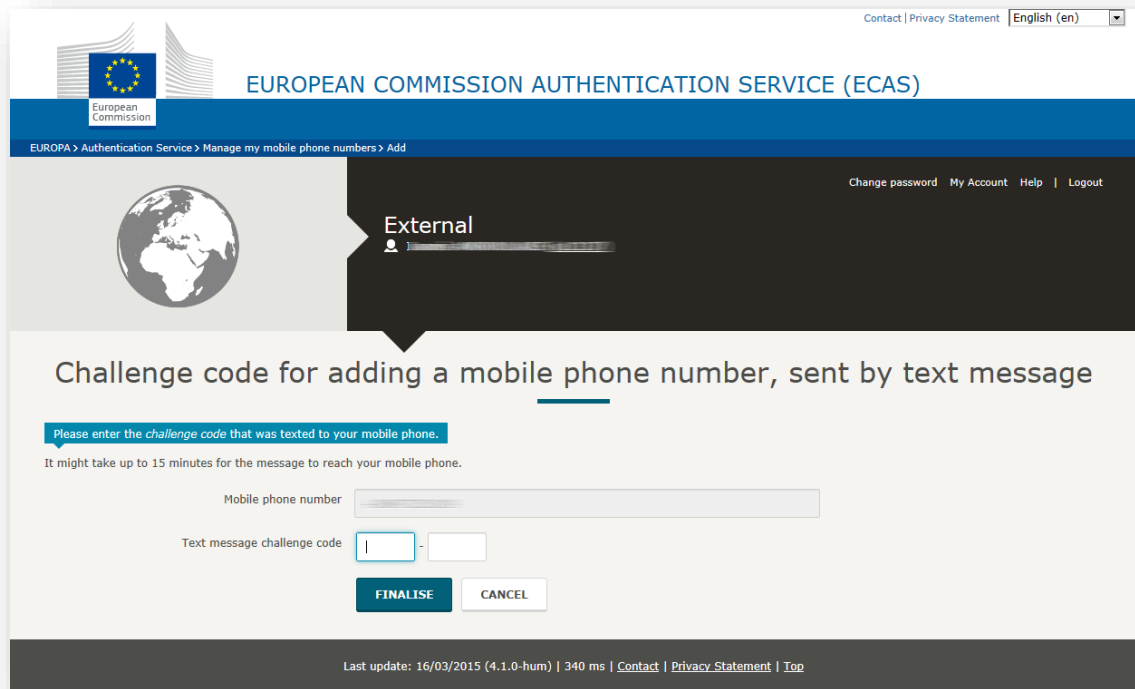

Click on '**Add a mobile phone number**' and the following screen will be displayed.

Enter your mobile phone number including the country code without any spaces in the following format: (e.g. +3521234123 for Luxembourg) and click on "**ADD**".

Step 5: Mobile number verification

Once you have entered your mobile phone number, a *challenge code* will be sent via SMS to your device.

The screenshot shows the ECAS web interface. At the top, there's a header with the European Commission logo and the text 'EUROPEAN COMMISSION AUTHENTICATION SERVICE (ECAS)'. Below this, a navigation bar shows 'EUROPA > Authentication Service > Manage my mobile phone numbers > Add'. On the right, there are links for 'Contact | Privacy Statement' and a language dropdown set to 'English (en)'. The main content area has a dark header with 'External' and a user profile icon. Below this, a large heading reads 'Challenge code for adding a mobile phone number, sent by text message'. A blue box contains the instruction: 'Please enter the challenge code that was texted to your mobile phone.' Below this, a note states: 'It might take up to 15 minutes for the message to reach your mobile phone.' There are two input fields: 'Mobile phone number' and 'Text message challenge code'. The 'Text message challenge code' field is split into two boxes separated by a hyphen. At the bottom of the form are two buttons: 'FINALISE' (in blue) and 'CANCEL' (in white). The footer of the page shows 'Last update: 16/03/2015 (4.1.0-hum) | 340 ms | Contact | Privacy Statement | Top'.

Enter the information you received and click on “**FINALISE**” to complete the verification process.

Step 6: Success confirmation

Once you have entered the *challenge code* correctly, you will be redirected to the page below and also receive a confirmation message to the email address associated with your ECAS account.

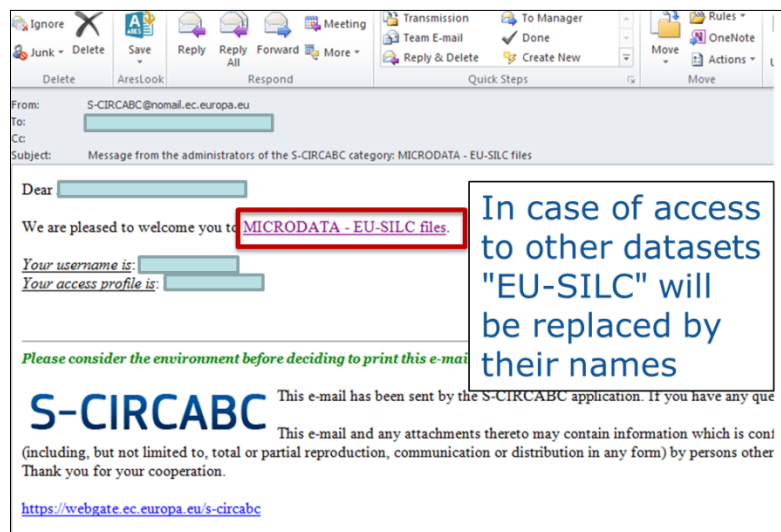

Please inform estat-microdata-access@ec.europa.eu that your EU login is ready (with your mobile phone registered). Add the RPP reference number and your mobile phone number (the data decryption password will be sent to this number). Microdata access team will invite you to the S_CIRCABC interest group with relevant data. If we are not informed that your EU login is ready we will not proceed with granting you access to the data.

Step 7 Access to S-CIRCABC and data download

You will receive an invitation e-mail to the S-CIRCABC – secure platform where the data are stored. Please follow the instructions in this step ONLY AFTER receiving the invitation!

We update the data regularly. The new version of the data comes with the new decryption password. If you do not download the data soon after being invited to the S-CIRCABC platform the data may be updated and the decryption password will not work anymore.

1. Click on the link in invitation¹. The screenshot below shows the workflow for EU-SILC but it is the same for all datasets.

2. If you see error message: "Sorry, S-CIRCABC could not process your request" just ignore it and click on "[Go to S-CIRCABC](#)".
3. Click on "Login"

1. ¹ If you know that you have been invited to the S-CIRCABC but for some reasons the invitation was lost (blocked by the firewall or lost in spam folder) pleas go to <https://webgate.ec.europa.eu/s-circabc>. Without being invited you will not have access to S-CIRCABC!

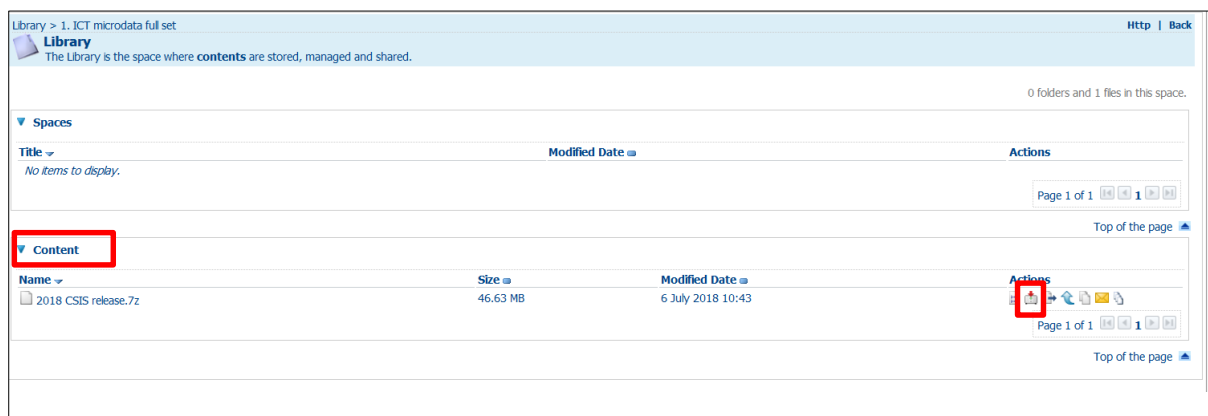

4. Type your e-mail and password,
5. Choose "Mobile Phone + SMS" as the verification method
6. Type your mobile phone (same as registered earlier to your account)
7. Sign in

8. Introduce the one-time challenge sent to your mobile
9. You are now authenticated
10. In the same browser type again the link in invitation (or type:
<https://webgate.ec.europa.eu/s-circabc>)
11. You should see the folders with the data to which you have permission; alternatively click on "Library".

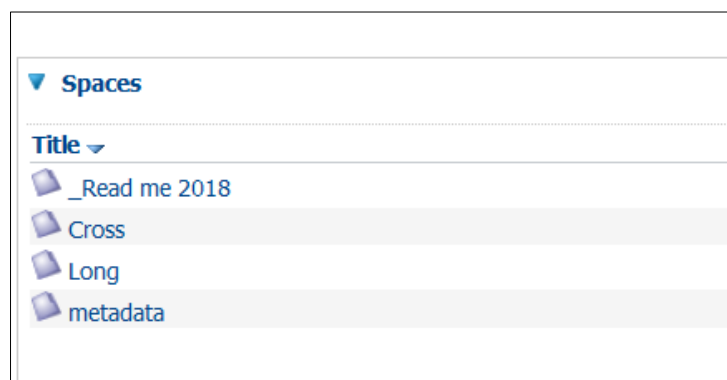

12. The data for download are stored under Content. To download the data click on the icon as shown below:

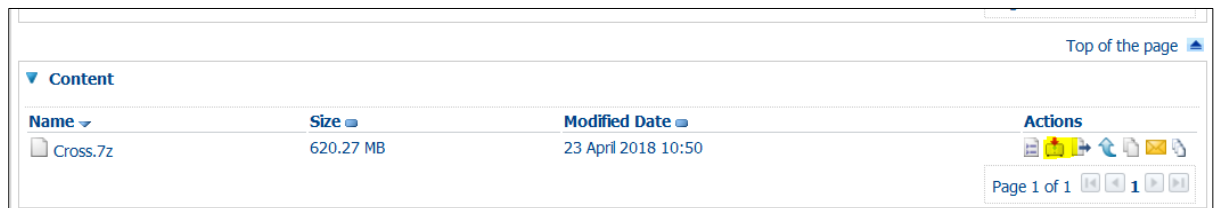

13. If there are no data under content, navigate the folders under Spaces to find the data you want to download. (example: EU-SILC data)

- Click on the data you want to download (e.g. "Cross"). It will be displayed as content.

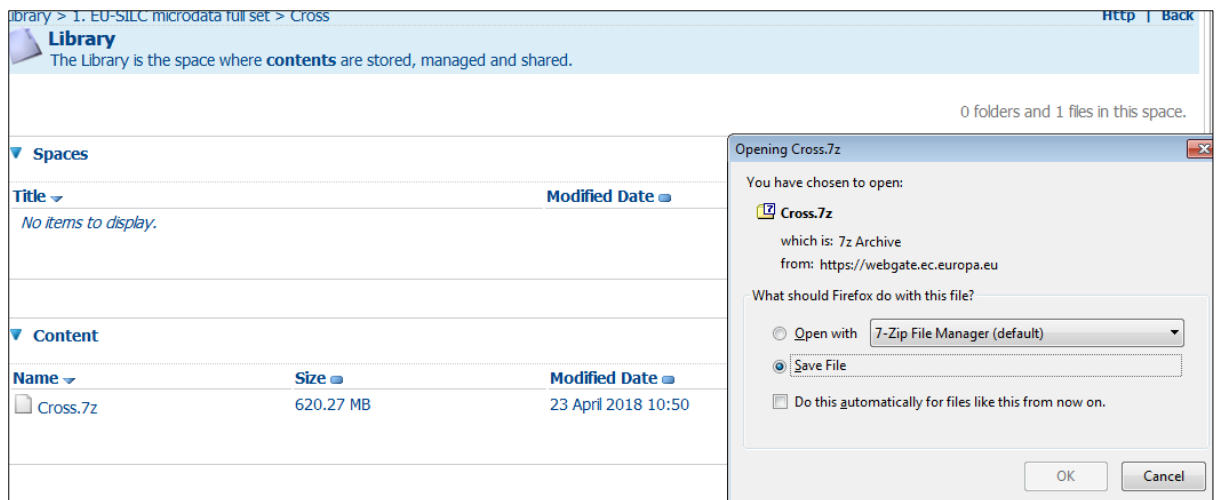

- b. Click on the icon Download. You have to click on each folder in "Spaces" first and then download the data one by one.

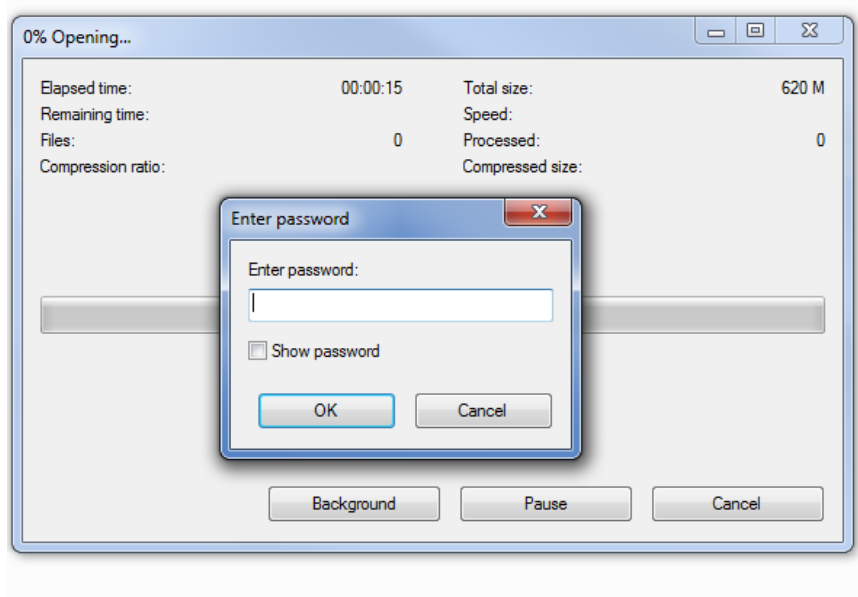

Note for EU-SILC: The file "bulk_create.zip" available under Content contains scripts to reorganize the current "Countries->Years" data structure to "Years->Countries" (previous structure).

14. Save the file

15. The data are encrypted; **the decryption password will be sent to your mobile phone** number. The password will be sent from the following number +32 460 21 38 28 (or similar). Don't reply to this number, it does not receive any message.
16. Click on the folder with data to unzip and decrypt the data. Use the password sent to your mobile phone (don't mix it up with the 9-characters challenge sent for access to S-CIRCABC).
17. Use the data ONLY in the premises of your research entity!
